

З М І С Т

BANDURA A. I. Composition, product and sum of analytic functions of bounded L -index in direction in the unit ball	115
MULYAVA O. M. On belonging of entire Dirichlet series to a modified generalized convergence class	135
MALLICK S., SARKAR D. Unique range sets for powers of meromorphic functions	143
МОКХОНКО А. З., МОКХОНКО А. А. Fast growing meromorphic solutions of the systems of linear differential equations	158
ГОРДЕВСЬКИЙ В. Д., ХУКАЛОВ О. О. The interaction of the asymmetrical screw flows for the Bryan-Pidduck model	173
ЛОПУШАНСКА Н. П., ЛОПУШАНСЬКИЙ А. О. Uniqueness of solution for the inverse problem of finding two minor coefficients in a semilinear time fractional telegraph equation	189
БАРАНЕЦЬКИЙ Я. О., ДЕМКІВ І. І., КОПАЧ М. І., ОБШТА А. Ф. The interpolation functional polynomial: the analogue of the Taylor formula	198
JAWAD F. Note on separately symmetric polynomials on the Cartesian product of ℓ_1	204
ШАХНО С. М., ЯРМОЛА Н. П., ШУНКІН Ю. В. Convergence analysis of the Gauss-Newton-Potra method for nonlinear least squares problems	211
АВТОРСЬКИЙ ВКАЗІВНИК, 2018	222
