

3 M I C T

BILANYK I. B. A truncation error bound for some branched continued fractions of a special form	115
NAKONECHNIY O. G., KUDIN G. I., ZINKO T. P. Formulas of perturbation for one class of pseudo inverse operators	124
BILOUS A. M. Idempotent matrices over a duo ring	133
SHEREMETA M. M., TRUKHAN YU. S. Properties of analytic solutions of a differential equation	138
MALYUTIN K. G., REVENKO A. A. Extremal problems in the space of meromorphic functions of finite order in the half-plane	144
ZABOLOTSKYI M. V., BASIUK YU. V., MOSTOVA M. R. Binomial asymptotics for the logarithmic derivative of zero-order entire functions with zeros along curves of regular rotation	156
MOKHON'KO A. Z., KOLYASA L. I. Some properties of meromorphic solutions of linear differential equation with meromorphic coefficients	166
EREMENKO A. A problem of Stanisław Saks	173
BAK S. M. Homoclinic traveling waves in discrete sine–Gordon equation with nonlinear interaction on 2D-lattice	176
SALIM D., BUDHI W. S., SOEHARYADI Y. On Rough maximal inequalities: an extension of Fefferman–Stein results	185
AMMAR A., JERIBI A., SAADAoui B. On some classes of demicompact linear relation and some results of essential pseudospectra	195
BOUCHELAGHEM F., BENHARRAT M. On the spectrum of linear operator pencils	211
АВТОРСЬКИЙ ВКАЗІВНИК, 2019	222
